VERMONT'S POLITICAL METHODS. The West Randolph Herald in the course an interesting article speaks as follows As a rule the American people love honesty and fair play. That they permit so much dishonesty in politics shows that something must be wrong. We ascribe it to their indifference, their lack of interest in politics. Absorbed by their private affairs they leave the context of t fairs, they leave the conduct of the state-one of the most important trusts-to men whom they would not engage to serve them in any responsible business capacity. This is less true of Vermont than of nany States, due, we believe, to the fact that we have fewer unscrupulous men to engage in politics and because there are fewer "plums" in Vermont politics to strive for. Certain it is that our freedom from political rottenness cannot be due to the careful attention we give it, for in no State is there less interest shown in the subject. It is only due to other conditions that we are so free from the disgraces that we so roundly condemn in other States. These conditions may not always

AN EPISODE IN LOCAL HISTORY.

(From the St. Johnsbury Caledonian.) French consul at New York in 1785, a resolute lover of liberty and an ardent friend of the Green Mountain State, sought to be of some service to a people that had carned his respect by its energy and industry. The Vermonters knew this, and to distinguish his friendship and kindiy acts in their behalf, at the suggestion of Ethan Allen. NINETY-ONE YEARS AGO.

An Interesting Old Letter, From Martin Chittenden to Jones Galusha. It is Unearthed in Texas by a Correspondent of the Free Press.

Abilene, Texas, Feb. 13, 1896. To the Editor of the Free Press:

While traveling through the more sparsely settled portions of this State rour correspondent visited the town of sparsely Roby, a village on what might be termed the frontier of Texas. While there he en-tered a dingy law office in the centre of a row of low wooden buildings. This par-ticular building was long and narrow and was divided into two or three rooms, in one of which was a comfused pile of boxes, books, old desks and office furniture, covered with dust. It was the last place in the world to look for ancient documents. The very population of the town seemed but temporary, the people striving against but temporary, the people striving against the disadvantages of a country still de-nominated by some as the great treeless desert. The houses were flimsy struc-tures, and the boxes and old office furniture in this room seemed only to have been dumped there to await further transportation. Yet in this promiscuous heap was a great wealth of books, documents, letters and private records, many of which were ancient, curious and valuable.

The Free Press man was soon delving

after hidden treasures. In a special drawer of one of the old desks were some old letters, and from among these he selected one written in 1805 by Martin Chittenden then member of congress from Vermont to Hon. Jonas Galusha, one of Vermont's early governors. This letter is of peculiar interest, because it refutes the idea so persistently advanced by the populists, are very numerous in that part of of the country, that our public function aries have degenerated, from a race giants, (politically and patriotically speaking) who in tranquility and peace performed their mighty works, to a race of selfish, partisan, if not corrupt pigmies, too small to rise above private or sectional interests and too much possessed by the "demon of discord" to be able to see the

"demon of discord" to be able to see the needs of the common people, and give them untold militions of flat money.

Mr. R. C. Crane, the proprietor of the establishment and a very pleasant and cultured gentleman, who seemed to be superfor to his surroundings, kindly allowed. his surroundings, kindly allowed this letter to be copied in full. Mr. Crane is a son of Dr. Wm. Carey Crane, the pul-pit orator and a man of profound learning, formerly well-known throughout the South. Dr. Crane attended college in New York State while a youth, and there became acquainted with and afterwards married a grand daughter of Hon. Jonas Galusha. In this way the letter came into the posession of the Crane family, where it has een for more than fifty years.

It is interesting to contemplate the history of this letter. Written by a federalist to a federalist it afterwards, through cupid's capers, fell into the hands of one of the "Virginia faction," a probable ad-mirer of John Randolph and enthustastic supporter of the second war with Great Britain, who made a note of some significant historical facts on the back of it It finally made its way to this southwest ern town where it seems to have survived to rebuke the horde of "reformers" who seem to have sprung from the desert in a night and have undertaken to reform the greed, rapacity, ignorance and corruption of modern politics and politicians, and to establish them on the lines of wisdom, moderation and justice that characterized the early days of the republic. The letter

On last Monday Judge Chase was ar-raigned before the Senate and made an-swer to the articles of impeachment ex-hibited against him. Suggestions by the State Highway Com mission in Relation to the Subject. To the Editor of the Free Press:

Sir:-In the interest of highway improve ment, the State commission desires to call attention at this time, to the desirability of towns re-electing road commissioners where such officials have given satisfaction in their work, and proved themselves

competent to fill the positions The custom of passing this office around, or of electing a new man each year, is expensive for the towns and tends to greatly retard the progress of road im-provement. A town can ill afford to lose the experience which a capable commissioner has acquired. Experience should be considered as valuable an acquisition in road building as in any other line of work; and the sooner the idea that any man can build roads ceases to prevail the more rapidly will the highway system of this State be brought into proper condition. State be brought into proper condition. Thousands of dollars are annually wasted in Vermont while new men are experi-

A provision of the law of 1894, allows towns so desiring to elect a road commissioner for three years, but in order to take advantage of this provision, it is necessary that a vote to that effect be taken when the commissioner is elected. This was not clearly understood last year. It frequently happens that a commis-sioner is unable to undertake an import-ant piece of work because the money or time available during a single season will
